

PORSCHE

The 911 GT3 Manthey Kit.

After more than a year of development, an exceptional kit has emerged, transforming the 911 GT3 (Type 992.2) into an uncompromising performer that pushes the limits between racetrack and road:

- Aerodynamic package to increase overall downforce compared to the standard vehicle in track setup to 540 kg at 285 km/h
- Adapted spring rates (+20% at front axle, -7% at rear axle) for optimised handling and overall vehicle balance
- Brake line set with steel sleeve for noticeably more direct pedal feedback
- Racing brake pads for improved fading characteristics, responsiveness and control
- Illuminated door entry guards in carbon and LED door projectors with Manthey lettering
- Optionally available (not included in price): 20/21-inch 911 GT3 lightweight wheel set, tow strap in red, black or yellow, carbon set with carbon-fibre front air outlets and rear air intakes

Price: 41,911 € (excl. VAT)*

Expected to be available from March 2026

Part number: **99204485530**

For vehicles with front axle lift system.

Part number: **99204485531**

For vehicles without front axle lift system (order no. 2UH).
